

If a player does not meet the criteria or is "Excused", an "X" is recorded for the week of play.

**Player Envelopes:**

The player's drawn card, from the box of shuffled playing cards, is placed in their Player's Envelope which has their name and player number written on it. This is to prevent the loss of any cards.

**Winning the Contest:**

At the end of the 8 weeks, players create their best 5 card Poker hand. (It is possible for players to have up to 8 drawn cards to create a hand.) Upon review, the player with the best/highest Poker hand will be determined the Winner.

In the event of a tie, those players will draw a card from the box of remaining shuffled playing cards. The player with the highest card drawn will be the Winner.

The winner gets the "Pot of Money" (determined by the amount of players that bought into the contest)

**Options:**

TOPS Chapters can add additional money, at their discretion.
